Oracle Primavera Cloud Orientation

Welcome to your new Oracle Primavera Cloud (OPC) environment, we're so happy that you're here! As a partner in your success, we provide a variety of implementation and enablement services to maximize your return on investment. The first step is an administrative orientation led by our OPC lead, Lauren Hecker. The objectives of this 30-minute orientation meeting include:

- ☑ Introducing and providing contact information of our enablement team
- ☑ Orientation of the Get Started page
- ☑ Overview of the Global Administrator functions including
  - License Management
  - User Settings
  - Permission Sets
- ☑ Process of submitting support request (SR) tickets with Oracle Technical Support

Discussion of implementation step and available services including:

- ☐ Data Migration
- ☐ System Configuration
- ☐ Global Administrator Training
- ☐ Standard and Custom User Training
- ☐ Use & Procedures Guides
- ☐ On-going Support

In addition to providing OPC implementation support, we also offer a variety of software and services options to support your project controls processes and best practices including:

- ☐ Oracle Database and Primavera P6 Software
- ☐ Bluebeam Revu Software
- ☐ Training – Open Enrollment, Private and Group Options
- ☐ CPM Scheduling

We have been providing project controls services for over 20 years and appreciate the continued opportunity to earn your business and look forward to a successful partnership.
